## SUMMARY

Software Engineer who is a fanatic for helping others. My attention to detail and adaptability as well as my ability to pick up nuances missed by most can be attributed to my many years of competitive gaming. The skills I've acquired help me better collaborate on projects in order to reach higher levels. Through creating products that ease peoples' minds I am able to sate my appetite when it comes to helping others while also producing high quality results.

## EXPERIENCE

### **Progressive, Lynnwood, WA** – *Claims Adjuster Generalist*

October 2022 – March 2023

- Took ownership over up to 50 claims and helped resolve client issues and claim concerns via email, phone and or text.
- Triage claims based on urgency/severity and escalate to appropriate parties when needed resulting in the resolution of over 5 claims per day.
- Documented all communications with clients and updating their info and concerns as they arise while ensuring the integrity of their confidential info remains uncompromised.

### **USPS, ISC JFK Queens, NY** – *Motorized Equipment Operator*

October 2016 – July 2022

- Met with team members to go over our daily action plan and address potential blockers.
- Entered information into GBS database to update current and upcoming trip manifests and status reports.
- Worked with other operators to come up with a plan which ultimately reduced the number of round trips we had to make daily by nearly 40%.

### **Walgreens, Brooklyn, NY & San Diego, CA** – *Shift Supervisor*

April 2012 – January 2016

- Created a task list at the beginning of shifts based on the condition of the store.
- Reviewed and resolved customer complaints/concerns and questions in real time as well as from the previous day.
- Created and taught others a technique to get an accurate read of inventory data that won't be affected by ongoing operations.
